

Forklift Electrical Parts

Forklift Electrical Parts - Lift trucks along with different lift trucks could have particular labels for use in some hazardous locations. The mark indicates that this specific model of lift truck meets the minimum standards of ANSI/UL 553 used for electric lift trucks or ANSI/UL 558 intended for internal combustion engine forklifts.

The application for labels for lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Check with your local insurance provider and Fire Marshall for more information on the permitted uses of industrial powered forklifts in your application.

If the certain forklift meets the outlined criteria, labels could be put. A labeled forklift will show the type of designation located on the nameplate and will have a correctly corresponding label attached.
